

# Botanical PAPERWORKS

## Promote Health & Safety in an Eco-Friendly Way

The influx of plastic created by the pandemic, along with recycling program setbacks, have made it more important than ever to reduce waste in any way we can.

Instead of generating even more waste, plantable products will have a positive impact on the planet by growing plants. Since they are fully customizable, they can be used for a wide range of messages and business needs, including promoting health and safety.

*Custom Inserts for Proper Disposal of PPE*

*Plantable Panel Cards with Safety Tips*

*Seed Paper Boxes for PPE Gifts*

*Social Distancing Seed Paper Button Badges*
