

Botanical PAPERWORKS

What does seed paper grow?

All products are available with our custom wildflower blend but other seed options are also available including herbs and veggies.

Classic wildflower blend > Catchfly, Sweet Alyssum, Snapdragon, Bird's Eye, Black Eyed Susan, and Clarkia

Tri-herb blend > Basil, Oregano, and Parsley

Veggie seed types > Tomato, Carrot, and Lettuce

[CLICK TO SEE MORE OPTIONS INCLUDING NATIVE SEED TYPES >>](#)

Seed paper is a special eco paper made from recycled paper waste that is embedded with seeds. When you plant the paper in soil, the paper will compost away and the seeds will grow. No waste will be left behind.
