**Bleed:** When the artwork is meant to touch the edge of the paper, extend the art 1/8" past the trim size on all edges for trimming purposes.

**Final trimmed size:** This is the final product size after trimming.

**Margin:** The space between the trim edge required to ensure that important details are not lost in the trimming process. Anything that is important, like text, must be within this margin.

Please make sure to include planting instructions in your artwork. For more details on file set-up, please [download the artwork guidelines](#) or [contact us](#) for assistance.
